Subject: Re: Could you check (or maybe you know) on the status of the sampling results at Dimock?

I'm not sure what you're looking for. The report below is the last one we received. We've also gotten a link to the actual data results on-line. http://www.epaossc.org/site/doc_list.aspx?site_id=7555

My understanding is that the Region is re-sampling certain wells and are not going to change any water deliveries until the second round of results are received.

Would you like me to call Cecil to get additional information?

Thanks,
Anne

Karin asked me at my general to see you you knew what the Region was thinking about the sampling.

Thanks!
